

MOHANRAJ V

Python Full-Stack Developer | Software Engineer

Bangalore, Karnataka | +91-7603866044 | mohanrajrdj144@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Python Backend Developer with experience designing scalable RESTful APIs using FastAPI and Django ORM, backed by PostgreSQL and MySQL. Implemented role-based access control for multi-stakeholder platforms and built RAG pipelines using FAISS and SentenceTransformer embeddings. Looking to contribute to backend-heavy product teams where API design and data architecture matter.

WORK EXPERIENCE

Software Engineer Trainee | Alstonair Technologies Pvt Ltd, Bengaluru | May 2025 – Present

Fusteps – Career & Learning Platform Django · React.js · MySQL · RBAC

- Built a multi-role web platform with 5 user roles (Student, Mentor, Alumni, Employer, Admin) using RBAC for secure, personalized dashboards.
- Implemented user onboarding, profile management, and mentoring workflows using Django ORM and MySQL across all stakeholder roles. Designed RESTful API endpoints integrating React.js frontend with Django backend for seamless data flow.

New Age Land (NAL) – Real Estate Web Application FastAPI · React.js · PostgreSQL

- Developed 10+ responsive React.js UI components and FastAPI endpoints, improving mobile-desktop compatibility.
- Built RESTful APIs using FastAPI and Pydantic, handling data exchange between React.js frontend and PostgreSQL database. Optimized backend queries and frontend state management, improving overall application performance.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript
- Backend Technologies: FastAPI, Django, Node.js
- Frontend Technologies: React.js, HTML5, CSS3, Bootstrap
- Databases: MySQL, PostgreSQL, Oracle SQL
- Tools & Cloud: Git, GitHub, VS Code, NumPy, AWS (Basics)
- Architecture & Design: System Design, REST API Design

PROJECTS

Apflyt — AI-Powered Job Search Agent | FastAPI · React.js · LangGraph · Groq (Llama 3) · FAISS · JWT · Tailwind CSS

- Built an AI job search agent using LangGraph and Groq LLM (Llama 3) that parses resumes, fetches live listings from Adzuna & Remotevite, and ranks results via a FAISS-powered RAG pipeline with a JWT-secured React dashboard.
- Designed a 5-gate filter engine reducing 40+ raw listings to 10–15 verified results with 85%+ fake detection accuracy, using a 3-metric scoring system (Match Score, Trust Score, Interview Probability) with SentenceTransformer embeddings.

Campus Collection & Distribution Framework | Python · Tkinter · MySQL · Pandas · tkcalendar

- Developed a desktop Student Management System with CRUD operations, CSV export via Pandas, PDF upload, advanced multi-field search, and calendar-based scheduling using tkcalendar.

EDUCATION

Master of Computer Applications (MCA) RVS College of Engineering, Dindigul | 2023–2025 | 85%

Bachelor of Science in Computer Science (B.Sc. CS) Dr. R. K. Shanmugam College, Kallakurichi | 2020–2023 | 85%

CERTIFICATIONS & ACHIEVEMENTS

- 'The Synergic Star' Award – Alstonair Technologies, 2026
- Python Programming – HackerRank, 2025
- Python Full Stack Development – Jspiders, Bangalore, 2025
